VPN Connection for iPhone users

Please flow these steps to create VPN connection to securely connect your iPhone to HSC network and access local resources (library journals, periodicals, etc...):

1- In the Setting, go to General. Then select VPN.

Settings	General
Restrictions	On >
Date & Time	>
Keyboard	>
Language & Regior	n >
Dictionary	>
iTunes Wi-Fi Sync	>
VPN	Not Connec
Regulatory	>
Reset	>
Shut Down	

2- Click on (Add VPN Configuration).

3- In the Type field, choose L2TP.

- **Description:** Type HSC VPN (Optional).

- Server: hsc-vpn.hsc.edu.kw

- Account: type your HSC account

(example@hsc.edu.kw)

-RSA SecureID: off

- **Password:** your account password.

- Secret: HSC-VPN

- Send All Traffic: on

then click Done.
