Dilek Kitapcioglu graduated from Istanbul Cerrahpasa Medical Faculty after she had finished Uskudar Anadolu High School. She became a medical specialist in Anaesthesiology & Reanimation at T.C. Turkish Ministry of Health Taksim Education Hospital, where she served as an expert medical doctor at the same hospital between 1997-2013. She was among the founders of Turkish Ministry of Health İstanbul Health Directorate Simmerk Medical Simulation Center and coordinated the medical simulation educational programs. She worked as consultant during the design phase of "I-Sim Virtual Hospital" project. She has been serving as the Vice Director of Acibadem University-CASE (Center of Advanced Simulation and Education) since 2013 and is responsible for integrating the medical simulation courses in the curricula of different faculties in Acibadem University. She is a founder member of the Turkish Medical Simulation Society and accreditation review board member of NASCE (Network of Accredited Skills Centers in Europe). NASCE is the accreditation system for medical training centers of UEMS (European Union of Medical Specialists) , which is functioning under European Union.
